

GROUND DRIVEN MANURE SPREADER

Conquer Manure Management with the Compact Powerhouse:

Say goodbye to messy stalls and back breaking work!
Our compact ground driven manure spreader packs a big punch, making it the perfect solution for horse owners and small-scale farmers alike. Easily maneuver this lightweight spreader even in tight spaces, and enjoy the convenience of in-stall loading for efficient clean-up. Experience exceptional performance with its wide and even spread pattern, thanks to the eight heavy-duty replaceable beaters. Constructed from durable 1/4" steel, this spreader is built to last.

Replaceable Beaters

Eight heavy replaceable steel beaters spaced every five degree produces a high output and wide spread pattern.

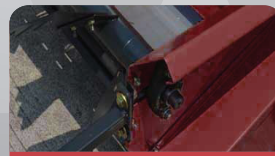

"T-Rod" Web Chain

Spreaders come equipped with "T-Rod" web chain. These chains are made to last with 3 times the life of other chains.

QUALITY CONTROL DOWN TO EVERY DETAIL

EASY ACCESS ADJUSTABLE BEARINGS

Beater bar bearings are easy to service and replace if necessary.

The machine includes easy access to all grease and maintenance points. (Safety Covers Removed)

Deep Lug Tires

The deep lug tires used provide superior traction for the ground drive mechanism.
